Environmental Policy

We operate a Zero Landfill Policy for all WEEE waste collected, and achieve this through careful selection of the types of equipment we recycle. Therefore our clients can be certain that their computer equipment and WEEE disposals have been handled and processed in an ethical and legal manner.

Data Destruction

All hard drives within any PCs, Servers and Laptops are destroyed using a hard drive shredding process or erased to Dept of Defence levels. Any storage media product and confidential paper is shredded and certified to the same standards as the hard drives.
